Sizing

The best way to choose the model size is to use the weight/breed guidelines, as long as your dog is not over or underweight.

If your dog is not at an ideal weight, or is between sizes, we recommend that you use these measuring instructions:

- Use a soft measuring tape, measure the length of your dog's snout from the end of his nose to the point where the snout starts to slope upwards to the eyes as shown on the drawing
- Then, measure around the widest part of your dog's snout while his mouth is closed
